INTRODUCTION

I started web-development since the last year. Until now, I created some websites [which I have listed below] and currently practicing Algorithms & Data Structures [for Coding Interviews and Contests].

EDUCATION

Bachelor of Commerce - *KSK College, Beed*

Graduated in - May 2019

SKILLS

- HTML, CSS
- JavaScript(ES6), TypeScript
- Python3
- C++17
- ReactJS, GatsbyJS, NextJS
- NodeJS, ExpressJS
- Firebase, MongoDB
- Postman

PROJECTS

Quick-JSON-API – *https://quick-json-api.now.sh* NextJS TypeScript

Provides an API which works on any site or server. Also provides option for creation, editing and deleting your own API

TechTube – *https://techtube.now.sh*   *Gatsby*   JS, YouTube API

TechTube is a simple website which imported my YouTube-playlists using YouTube Data API v3 and displayed them on website with a simple UI.

Crown-Clothing - *https://crownclothing.now.sh* ReactJS, Redux, Firebase

My first project build while learning from a Udemy course on ReactJS

LANGUAGE COMPETENCIES

- Marathi: native language
